## DESCENT RÍO DE LAS VUELTAS (SIT-ON-TOP KAYAK)

The experience of travel Patagonian lakes and rivers will enrich your visit to the area. These activities are aimed at people with good fitness but not necessarily with experience in rowing. We have designed programs for both beginners and experienced kayakers alike can enjoy our programs. The River turns its headwaters in Lake Desert and as the name implies descends into Lake Viedma making numerous turns through lush Lenga forests and vertical walls, transporting the product water from melting glaciers in the region, including the high glaciers of Mount Fitz Roy. Our day starts with our Fitz Roy Eco Adventure Camp (ECO CAMP) and ends at the town El Chalten. From our privileged position in the kayak and over 20 miles we can enjoy the best views of Fitz Roy and its needles satellites, with a completely different from what can be seen from a trail.
